

Sign up to access;

- Tools and support you need to improve the health and learning of the children you work with.
- A FREE website with dedicated resources and guidance.
- Our easy to use Wheel Tool that will support you to gather, organise and submit evidence for the HLHL Award.
- The Wheel Tool will enable you to gather all your health related policy, resources and evidence in one place.
- Peer support, good practice examples and support from the Public Health team.
- Best available evidence and assurance regarding standards and practice in your setting.

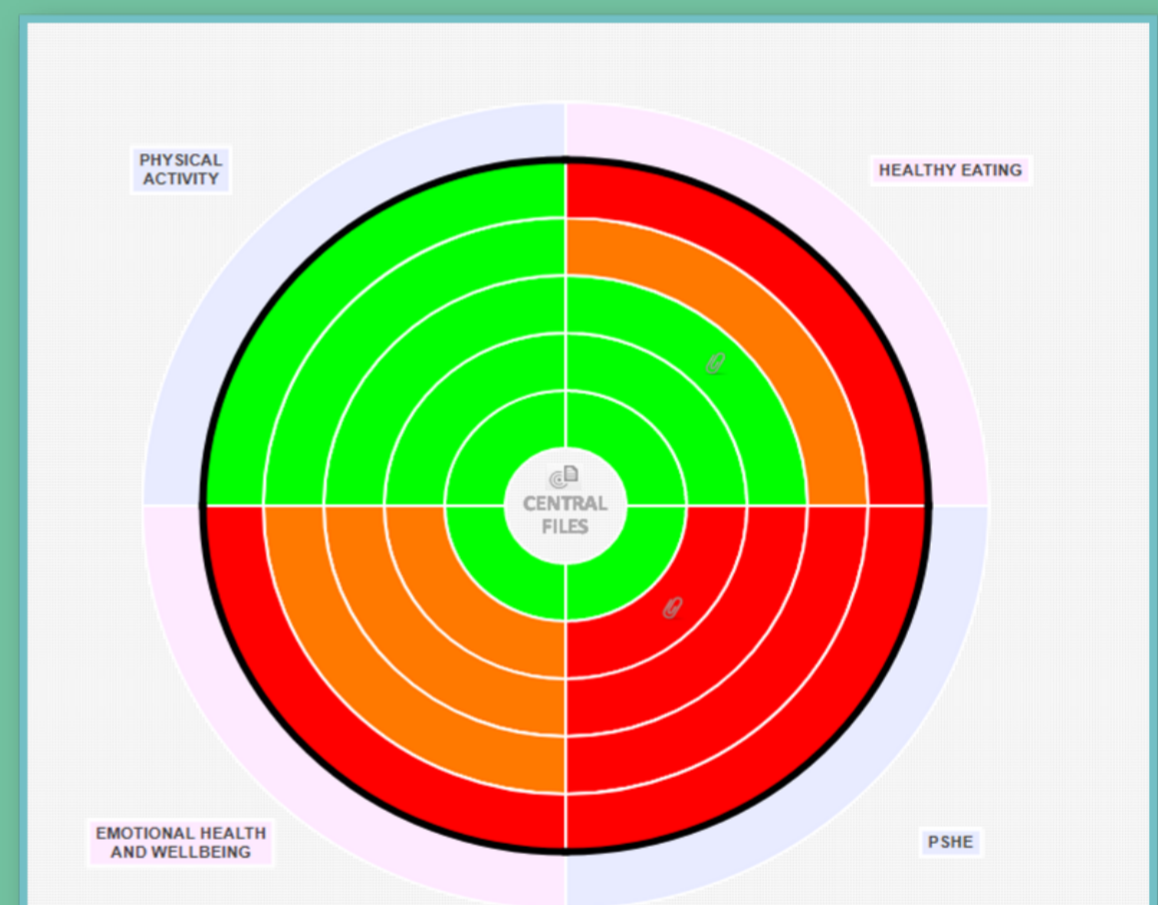

What is Healthy Learning, Healthy Lives?

Healthy Learning, Healthy Lives is Doncaster Council's healthy schools and early years award.

Healthy Learning, Healthy Lives (HLHL) has replaced the Healthy Schools programme in Doncaster. We have taken the award online, combining an innovative online Wheel Tool with a comprehensive healthy settings website.

All local education settings can take part, including schools, further education, special schools and early years education settings, including childminders and nurseries.

Our innovative new Wheel Tool:

- Easy to use.
- 'Real-time' updates; we can access your wheel and support you as you go along, you don't have to complete a final "submission".
- One shared log-in for colleagues to share workload.
- Relevant guidance, best practice examples and links are embedded in each section of the tool.
 - Invaluable for self-assessment and progressive improvements.
- Can be used to store all your evidence securely for inspections, management and planning.
